Wrench

TORKY™ Pre-Set Wrench

CDI's TORKY is a right angle pre-set torque wrench. Torky is designed for production torque applications that require higher values than a torque screwdriver can deliver. The comfortable design eases the strain of repeated uses. The torque value may be pre-set at the factory or it may be set by the operator utilizing a torque tester. When the proper torque value is reached, a momentary release or "break" can be felt.

Available in three drive styles to fit most needs.

FEATURES:

- Three models available
- Simple, easy to use design
- Ruggedly built for years of reliable service
- Operates Bi-Directionally
- Accuracy: $\pm 6\%$ of indicated value, CW, from 20% to 100% of full scale

TORKY™

Prevents premature wear of carbide inserts and damage to cutter head due to improper clamp load.

Part Number	Drive	Torque Range in. lbs.	Torque Range Nm	W x L in.	W x L mm	Wt. Oz. (G)
1501TPA-1	1/4" Female Hex	20-170 in.lbs.	2 - 20 Nm	1 X 5.25	25.4 X 133.3	8.3 (235)
1501TP-1	1/4" Male Square	20-170 in.lbs.	2 - 20 Nm	1 X 5.25	25.4 X 133.3	8.3 (235)
1502TP-1	3/8" Male Square	20-170 in.lbs.	2 - 20 Nm	1 X 5.25	25.4 X 133.3	8.3 (235)

Note: All models are easily adjusted using a 5/32" Hex Key
